BORO COUNCIL IN REGULAR MEETING

Unimportant Session Held Last Night—Body Passes An Ordinance On Final Reading, Regulating the Parking of Vehicles

CONSIDER OTHER MATTERS

Motion Prevails to Place Telephones In Homes of the Policemen—Gas Company Given Permission to Lay Two-inch Line Out Maple Creek

Hesitancy on the part of council at its regular monthly meeting last night on the proposition of a suspension of the rules to pass an ordinance third and final reading, was brought to a climax, when Burgess J. Bryant Tussing arose to his feet and declared that the passing of the ordinance—regulating the use of, and parking of vehicles—was a paramount necessity, as in conjunction with the police force, the authorities could not properly function if the important matter were delayed. The ordinance was brought to the fore by President Hugh E. Fergus, who stated that he was greatly in favor of the suspension of the rules of the body and the passage of the measure third and final reading. Council was slow to act, and after passing the ordinance first reading, indications were it was to be held in abeyance; it was at this juncture that the burgess, through his eloquence, was enabled to get the body to take action and secure the measure's passage final.

A motion prevailed to place party telephones in the residences of all the policemen.

The president of the body was authorized by it to confer with the State Highway department relative to the improvement of Lincoln Avenue extension.

It was noticeable that there were fewer citizens present for a regular session of council last night, so the inference could be gained that the beauties of the night, accentuated by the attractions incident to the Firemen's bazaar had their lure.

Lookout avenue residents were present with a petition for the improvement of a portion of that thoroughfare, across Sixth street. The matter was referred to the borough engineer and the street committee, with power to act.

A representative of the Russian Orthodix c hurch in Lookout avenue asked that the street be improved in the locality of the church by filling in with slag. The proposition was referred to the street committee.

The Greensboro Gas Company was given permission to lay a two-inch line out Maple Creek road. Permission was granted, subject to the approval of the borough engineer.

Burgess J. Bryant ussing's report among other things, elicited sirty arrests during the month of June, with receipts accruing from the office of $591.

Charles S. VanVoorhis, chairman of the Fire and Light committee, recommended lights to be placed, viz: in the hill district, between Crest and Lincoln avenue in Ninth street; between Ninth and Tenth streets in Fallowfield avenue, and three lights at the Pennsylvania Railroad station. The recommendation of the gentleman was referred to the fire and light committee, with power to act.

FUNERAL FOR JOHN A. SMITH ON TOMORROW

Funeral services for John A. Smith, aged 82 years, Civil War veteran, will take place tomorrow afternoon at 2 o'clock from the home of Mr. and Mrs. Samuel Stahl of River Front street, North Charleroi, with Rev. Dr. E. H. Greenlee in charge. Interment will follow in the Howe cemetery.

The aged man met his untimely death yesterday afternoon shortly after 2 o'clock, when the Oakland touring car in which he was riding with his niece, Miss Violet Abel, while enroute to Allenport to spend the afternoon in working in a garden, collided with a telephone pole on the Speers road near Sphar farm, and the flying glass of the shattered windshield severed the jugular vein and together with the shock, caused instant death. The machine, while driving on the Speers road, got over into a small ditch at the side of the highway, and before the girl could pull it back on the road, collided with a telephone pole. She lost control of the machine and it shot to the opposite of the road and there collided with another pole, doing considerable damage to the car.

Thinking her uncle had been knocked unconscious, the girl turned the car back to Charleroi and with the dead man sitting at her side, with blood streaming from his wounds, she brought him to the office of Dr. H. J. Repman, but the man was long past medical assistance. The deceased was removed to the mortuary of Deputy Coroner M. T. Crowley, and later turned over to Lawrence B. Frye, and prepared for burial.

Rossi Boy Is Freed By The Burgess

Yesterday afternoon Angelo Rossi, the Maple Creek boy, was arranged before Burgess J. Bryant ussing in order that an examination might be made whereby the lad could be connected with burglaries that have occurred in the borough. He was discharged by the municipality's chief functionary.

At 3 o'clock this morning, Officers Ohlinger and Corey picked up a man who gave his name as George Morgan, on suspicion. It is said that Morgan hails from Louisville, Ky., originally, but recently has been a hanger-out in the Water street section of the city of Pittsburgh. He is said to be a "river rat."

S. Mimms, a colored man, arrested at 12:30 this morning by the same minions of the law.

M'ADOO TRYING HARD TO WIN THE NOMINATION

After seven states had finished voting on the 38th ballot, the last one being Florida, William Jennings Bryan, asked to have the floor. Voting was stopped for the time being, giving Bryan the floor and he spoke in a strenuous plea for the nomination of McAdoo. At 2:30 o'clock Bryan is still speaking and the convention is in an uproar.

Madison Square Garden, N. Y., July 2.—Under his personal direction from headquarters, just across the street from Madison Square Garden, William G. McAdoo this afternoon is making a determined drive in the Democratic National Convention to bring about his nomination for president.

After determined work on the part of floor managers, MAdoo acquired Mississippi's 20 votes into his column on the 24th ballot, and Oklahoma returned to the McAdoo standard with 20 more, raising the Californian's total to 445. The cange in the voting was accompanied by a rousing demonstration on the part of McAdoo Democrats, but this vote of 445 is still 34 votes short of what McAdoo polled on the first ballot and is still considerably apart to regain his initial strength. Missouri, McAdoo managers claim, may be expected to shift back to him on the 35th or 36th ballot. At noon it was learned that Mississippi has agreed to stand by McAdoo for five ballots in order to give him a chance to show just what he can do. At the fifth ballot, Mississippi delegates will be free to go elsewhere, if they want to. Governor Smith is holding his total at 311 votes on the 34th ballot, and his manager was still smiling confidently. They pointed out that McAdoo was gathering no new strength whatever, and the increase in vote merely was the return of votes he had on the first ballot.

The thirty-fifth ballot: Smith, 323½, McAdoo, 439½, J. W. Davis 107, Underwood 38 1-2, Ralston 33, Glass 29, Robinson 24, Governor Davis 3, Ritchie 16½, Cox 50, Walsh ½, Saulsbury 6, Owens 25, James W. Gerard 1.

The result of the thirty-seventh ballot, which was finished at 2:05 o'clock this afternoon was broadcasted as follows: McAdoo 444½, Smith 321, and Davis 107.

Madison Square Garden, N. Y., July 2.—The bulky form and genial countenance of Samuel M. Ralston today cast its reflection over the Democratic national convention's struggle to select a presidential candidate.

As the third day of voting started and the thirty-first call of the roll of states was announced, the Hoosier senator was found to be compromise pick of several weary delegations and gaining sub-surface strength rapidly.

The final ballot taken by the convention shortly before midnight last night, found W. G. McAdoo still well in the lead of Al Smith, his nearest rival, but the latter had closed the gap so as to be but 92 votes behind the Californian.

Perhaps more significant was the fact that in the thirty ballots taken yesterday and Monday, McAdoo showed a loss of sixteen votes as his net change, whereas Smith showed a gain of 82.5 as his.

Regarding the Smith candidacy, the New York governor has not yet shown his ability to muster a third of the convention under his standard—and a third is necessary to definitely kill the chances of any other candi-

CONFIDENCE MEN MAKE BIG HAUL

Address a Coal Miner of Van Voorhis at Monongahela And After Showing Him How to Make Money, Relieve Him of $1,250

IN HANDS OF THE POLICE

No Arrests Have Been Made—Victim Is Approached By Two Strangers Who Convince Him There Is a Gretna Green to Sudden Wealth

Alex Miganko, aged 40, a coal miner, residing at Van Voorhis, was a victim of two confidence men on Monday, and is short in his finances to the extent of $1,250, according to report.

It is said that the man was loitering about the streets of Monongahela, having been incapacitated from labor fo r some time, account of an injured hand. He stopped to listen to the radio reports of the Democratic convention. He had been there for several minutes when he was approached by a well-dressed middle-aged man who had, also, been listening to the reports and who engaged Mignanko in conversation. After a general talk, the stranger informed Miganko that his brother had died recently and left him the immense sum of $48,000 in cash, which he said that he carried on his person and was fearful of being robbed. He also stated that a trunk, which he had at the railroad station contained a large sum of coin of the realm and a number of valuable diamonds. About this time the two men were joined by a second well-dressed individual. Then the first man produced a large roll of bills, explained to Miganko that it was a portion of his money, all of which he and his accomplice intended investing in a Monongahela real estate deal. The accomplice, also, showed a number of bills to Miganko. After explaining to the victim that if he would invest his money in the deal there were possibilities of making a large sum of money. Miganko questioned the statements of the first man but the second declared he knew him to be a prominent business man of Monongahela. Miganko thinking he had met two Monongahela business men who might add to his fortune if he invested his savings in their scheme explained that he had $1,250 deposited at the postoffice and if there was no chance to lose he would invest immediately. Then followed more talk by the sharpers following which Miganko went to the postoffice, obtained a draft for his savings on a Monon-

Woman, Minus Papers, Says Paying Taxes Is Not Obligatory

TOM CLARK, FORMER BALL MAN, KILLED

Tom Clark, formerly of Monongahela and for many years manager of the Monongahela Independents Baseball team, was killed instantly, on Friday June 27, when he was struck by a railroad train on the Pennsylvania railroad at Woodlawn, where Clark resided.

Tax Collector Fred W. Brady, this morning, served papers on Mrs. Mary Cannoy, a resident of the hill district, for the refusal of the woman to pay her taxes. The woman's defense, is, that not being a citizen of this country, it is not obligatory on her to pay taxes.

Mrs. Cannoy was incarcerated in the lockup at the Municipal building at 11:55 o'clock. It is expected commitment papers will be issued within the next 24 hours, and in default of settlement, with costs, of her taxes, she will be lodged in the county jail at Washington.

SUPPLY STORE IS LOOTED

Thieves Monday night broke into automobile accessory shop of T. L. Milhoan on the Monongahela-Washington road, a short distance above Valley Inn and looted the place. Goods to the amount of over $500 consisting of tires, tubes, spark plugs and other auto fixtures, along with a large quantity of tobacco and cigarettes were taken.

Entrance was gained by breaking a window pane and then unfastening the latch. A truck was evidently used to haul away the stolen articles.

WIFE OF A PREACHER CAUGHT IN STORM AT LORAIN, OHIO

Mrs. H. H. Wilson, wife of the Rev. H. H. Wilson, pastor of the First Baptist church of Charleroi, with her son, arrived home this morning from Lorain, Ohio. The lady an her babe Jack, eft last Saturday to visit her brother at Lorain. Mrs. Wilson and child arrived at Lorain coincident with the time that the tornado struck the city; and she reports that although the seven-passenger car in which she was riding was shaken liken to an aspen leaf, Mrs. Wilson an party escaped uninjured.

Mrs. Wilson stated that people have little conception of the devastation and woe which followed in the wake of the storm; that although people are lending their assistance with generous hand there are still many who are suffering from the sorrows incident to the loss of loved ones, property and personal effects. She stated that Lorain is under martial law, and that the citizenry are being protected by soldiers, sailors, and Boy Scouts from various parts of the country.

Many Delegates Expected At C. E. Convention In Pittsburgh July 7-11

Nine thousand delegates to the Christian Endeavor state convention are reported registered at the First Presbyterian church in Pittsburgh and with the convention six days off all indications point to an attendance of 15,000. Sessons will be held in the Schenley district, in Memorial hall, Syria Mosque and Alumni hall, while nightly mass meetings will be held at Forbes Field. Delegates to these meetings will be admitted at 7:30 and the doors will be open to the public after 8 o'clock. A great parade is expected to be the greatest ever held on the downtown streets of Pittsburgh, will be staged Wednesday at noon, July 9, in which juniors and intermediates will participate. A pageant entitled, "Where Saints Have Trod," will be staged at Forbes Field on the evening of July 10. This pageant is to begin at 9 o'clock at night, 1,000 persons will participate. In addition to the 15,000 delegates it is expected that 10,000 others will be present.

The opening scenes are laid in Jerusalem and every effort has been put forth to make the pageant striking. The costumes are to be in keeping with each era pictured. The cast will be directed by telephone. Every word uttered by the cast will be distinctly heard by the vast audience. The same portable amplifying system which sent to thousands every word uttered at the services for the Unknown Soldier will be used. The apparatus has been brought overland from Philadelphia. The gathering will close Friday night, July 11, with installation of new officers.

Among the speakers during the convention will be Secretary of the Navy Curtis D. Wilbur; Dr. Daniel A. Poling, associate pastor, Collegiate Marble church, New York; Dr. William Hiram Foulkes, executive secretary of the New World movement of the Presbyterian church, New York; Bishop Edwin H. Hughes, Maiden, Mass., leader in Methodist young people's work; E. P. Gates, general secretary of the National Christian Endeavor organization.

HILL ROAD AT SPEERS IS TO BE PAVED

ONE KILLED AND TWO ARE HURT IN AUTO ACCIDENT

Pittsburgh, July 2.—Bart Nee of North Braddock was crushed to death and two other men injured when an east-bound work train running backward, crashed into an auto at Sixth street at Braddock today. Nee was the driver of the automobile.

Four cars and a caboose were derailed, and one of the cars crashed into the front of the residence of John F. Caughran.

At the regular July meeting of the Speers Council, held last night with President F. C. Beazell in the chair, an ordinance passed final reading providing for the paving of the hill road.

Specifications will be advertised and bids asked for and at the August meeting, to be held Tuesday, August 5, the bids will be opened and the contract let.

Work on the paving will be started as soon as the necessary arrangements are completed and it is hoped the thoroughfare will be in use late in the fall.

IN THE WORLD OF SPORT

MOORE A. C. PROVES A SUPRISE ALBEIT THEY ARE BEATEN

The Moore A. C. colored team proved a surprise at the Charleroi Baseball park last night, as while the locals defeated them by a score of 4-1, thanks are largely due the clever pitching of Beatty and the batting of Charlie Davis, who had three bingles, one of which was a home-run drive. One of the longest hits ever seen on the Charleroi grounds was made by Pitcher Beatty to deep center, the ball striking the fence about a foot from the top Gibbs, the new catcher, looked good in his first appearance.

The crowd was very small to greet the visitors, even the colored folk not turning out. It is be presumed that one reason for the small attendance lay in the fact that the Homestead Grays will be here two games on the big holiday—morning and afternoon, and the people are waiting to see the contests.

It was noticed that two of the players on the Moore A. C. were former Homestead Gray players. The score:

Whales Face Extinction

So many whales are now being killed off the coasts of South Africa that appeals have been made to the Union government to restrict them taking to the larger size males. A total of 700 whales in a year were killed by companies operating out of South African ports and in the nearby waters. Whales are becoming scarcer and smaller as a result of unrestricted slaughter and it is now proposed to prohibit the killing of females and of all whales below a certain size, dependent on the species.

Griddles Made of Soapstone

Soapstone is a kind of rock ranging in color from bluish gray to green. Chemically it is composed of hydromagnesian mineral talc mixed with other minerals. Some soapstone is quite soft, being readily cut with a knife, but it is the harder kind which is used for griddles, sink lining and fire bricks. Such soapstone usually comes from North Carolina or Virginia. A soapstone griddle may be used almost the same as any other kind of griddle.

"Dark" Stars.

The United States naval observatory says: "A dark star is an invisible or very feebly luminous star. As it is impossible to estimate the proportion of stars that are 'dark,' it is conceivable that these may greatly out number the visible ones. That many dark stars do exist, however, is shown by their effects on the orbits and of the light of certain luminous ones, and by the appearance of novas."

CARDINALS ANNEX SECOND GAME WITH PITTSBURGH CLUB

Johnny Morrison's curves had a flickering spell in the fourth inning at St. Louis yesterday and the Cardinals succeeded in taking Old Man Opportunity by the ears and overcoming a two-run lead which gave them a 5-2 victory over the Pirates and made it two in a row.

Rogers Hornsby took occasion to hang up his ninth home run of the year when one base was occupied in the eighth. But this wallop which bounded over the roof of the right field pavilion barely inside the foul line, had nothing to do with beating the Buccaneers, as they had been tamed in the fourth frame through the agency of a walk, three consecutive singles and a sacrifice fly.

Hornsby's four-base clout was his third hit for the afternoon. The Cardinals collected nine hits off Morrison and of these Blades and Holm at the top of the batting order got two each.

Johnny Stuart, who hurls with his right hand was the chief stumbling block for McKechnie's boys, who were limited to [illegible] the second round, two in the third and another which was delayed until the ninth. Stuart succeeded in holding the Pittsburgers completely at his mercy after Round 2.

Pie Traynor reappeared at his old position on third base when he broke in as a substitute after Eddie Moore had been soaked on the neck with a bender in the fifth inning. Moore had registered a safe smash and carried a run across the rubber before he was compelled to retire. Traynor was at bat but once, when he went out on an easy foul fly.

It is said Moore will be out of the game for weeks.

Organ of Bamboo

A bamboo organ in the Catholic church of Los Pinas, near Manila Philippine Islands, was built about 1818 by a Spanish priest, who used more than 900 lengths of bamboo in the construction. Every part is of bamboo and the organ is still used every week by the Belgian priest in charge.

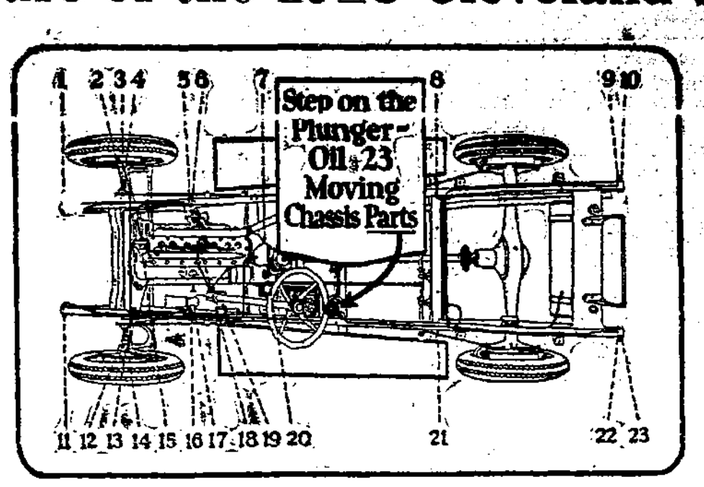
Have You Studied This Marvelous Feature of the 1925 Cleveland Six?



One-Shot Lubrication System

TAKE ten minutes to inspect the biggest convenience feature ever offered the motorist—the One-Shot Lubrication System.

See how this patented Cleveland Six feature does away with the grimy task of greasing and oiling the car by hand.

The plunger projects through the floor board. Step on it. Instantly all 23 working chassis parts are lubricated. All squeaks and rattles are silenced. An hour's job is done in two seconds.

Thousands have marveled at its simplicity. You will marvel, too.

Mileage Motor

Then drive the car. Put the new Mileage Motor through its paces.

Note its beautiful smoothness and silence at all speeds. See how it leaps from 5 to 25 m. p. h. in less than 7 seconds; how easily and swiftly it masters the hills; how, even at 60 miles an hour, there is no labor or clatter.

Balloon Tires

Drive over cobblestones and rutted roads at any speed. Revel in the riding comfort of balanced weight, supple springs—and the genuine super-size balloon tires with which all models come equipped at no additional charge.

4-Wheel Brakes

Simple, effective, efficient four-wheel brakes can be had at a slight extra charge.

Make a point of seeing 1925 Cleveland Six! Make a point of driving this truly marvelous six yourself! Twice around the block will show you why this new type of low-priced car is already sweeping the nation.

A PUZZLED BRITISH ONLOOKER

An English observer of the Democratic National Convention curiously inquired: "Why do you Americans have these demonstrations at your political conventions?" He said he had been told that sometimes they lasted an hour, and for his part he was quite certain that he "could not possibly cheer about anything wholeheartedly for more than two minutes," adding: "I've been in South America, wher the people are supposed to be very excitable, and it couldn't happen there It couldn't happen anywhere but here. How do you account for it?" It was suggested of emotion in a convention demonstration rarely lasted longer than ten minutes, and that what followed was apt to be mere vocal propaganda or campaigning.

But still the onlooking Britisher was puzzled, and, after seeking further information, he was gravely told by an inwardly smiling aquaintance: "The political convention offers to many Americans the only form of high jinks which is sanctified and accepted by even the most rigorous of the fundamentalist churches." In proof of this the unscrupulous cicerone pointed to William Jennings Bryan enthusiastically waving a red pennant as he marched up an aisle with the Florida delegation, and added: "Mr. Bryan's religious convictions discourage him from drink or dancing, and so he has gone in for political conventions." Probably this did not help much and may even have increased the Britisher's mystification, causing him to infer that political convention uproariousness is one of the consequences of the 18th amendment, although the said uproariousness doubtless dates back all the way to the "founding fathers." It is easy to imagine the British observer finally seeking refuge in the unspoken but characteristic exclamation—"My word, but these Americans are jolly queer!"

OIL AND FOREIGN POLICY

In some particulars Senator Harrison's address at the Demoratic National Convention recalled the pyrotechny of the amusing Mondell who at Cleveland confidently assured his inwardly smiling listeners that the Republican party had never made a mistake and that there was "not a singe redeeming feature" in th record of the Democrats. But Senator Harrison did not confine himself to and found time for definite charges in detail, thus giving expression to the mass feeling now turned against the Republican party on account of its record of the past four years as well as the recent disclosures. The Senator was effective in his contrast of this record with the way in which President Wilson exalted the United States in the counsels and respect of the world.

He was equally effective as he pointed to the atmosphere and trail of corruption at Washington, in which connection he made his most telling single utterance: "Show this administration an oil well, and it will show you a foreign policy." This of course referred to the sudden change of heart among the Republican leaders after oil was discovered in Colombia. The Wilson treaty paying Colombia $25,000,000 damages, as a matter of justice for the loss of her province of Panama had been bitterly abused and rejected by the Republican majority in the Senate, but after oil was discovered and big interests desired Colombia's good will Secretary Fall readily induced Republican Senators to eat their words, and the formerly despised treaty went through with a whoop.

Formed Ages Ago

On view at the American Museum of Natural History, New York, are three blocks of limestone from the slopes of Mount Lebanon, near Beirut, Syria. Their age is estimated at a million years. They were taken from limestone which formed the bed of an ocean which once covered that area. They contain the remains of shellfish and other marine organisms which lived at that time, and which were entombed in the mud at the bottom as they died, thus being preserved as the mud hardened into limestone.

Holds Absence Record

Annie Albano, eight years old and a pupil in the East Boston schools, has been absent from school more than 100 sessions since the opening of the school term, which was little more than half over when the record for truancy was announced. Her truancy was not voluntary, however, as she was kept home to care for other children by illness due to local trouble.

Hats for Wear in Next Century Are Displayed in Paris

Designed for wear in the spring of 2000 A. D., styls of millinery shown at a [illegible] in Paris were composed of massive

arrangements of feathers and large clusters of leaves. One of the most popular models consisted of a decoration of gorgeous feathers that towered above the wearer's head and drooped gracefully to her shoulders. Gaudy headdresses of blossoms and foliage also were displayed as fashions that would be the mode during the first years of the next century.

Hyena Strong but Cowardly, Runs from Small Dog

Although it is one of the strongest mammals, the hyena is a notorious coward and will often flee when pursued by a small dog. Only when cornered will it offer fight but then it defends itself desperately. Because of its skulking nature and its habit of living from refuse on village dumps and carrion left by other beasts, the hyena is held in contempt among the natives of Asia and Africa, where it is most commonly found. The strength of its jaws is sufficient to crush the shinbone of a horse.

Wear on Gold Coins Results in Loss of Millions

What becomes of gold? It has many channels of disappearance, according to [illegible] figures show that more than half of the annual output is employed in the fine arts and jewelry trade. Thousands of pounds also are used by dentists, one estimate being that over a ton is needed every year for the filling of teeth. Then money is worn away in handling, this loss being placed at $1,250,000 annually. Bank of England sovereigns are often tested and found to have lost much of the original weight. Of the immense quantities of the precious metal that have been buried away in the earth, it is believed comparatively little has ever been recovered.

The priests of Peru are said to have buried approximately $10,000,000 worth of treasure to preserve it from the clutches of their persecutors. None of this has been found. The tombs of the old kings of Egypt were treasure houses, immense quantities of gold and jewels being interred with them. It has been estimated by historians that Alexander the Great became the master of great hoards of gold, all of which, so far as is known, has vanished.

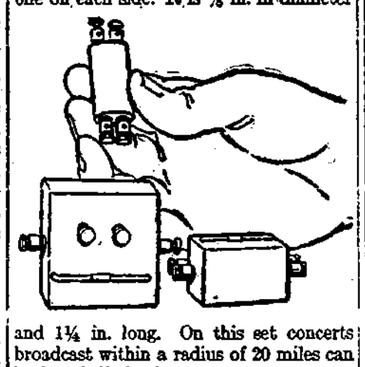
When hanging wall paper on a side wall it is necessary to see the edge of the paper from top to bottom in order to get the correct lap. This is very difficult to do when wearing spectacles, for it is impossible to see through them as well as with the naked eye. It has been found that this difficulty can be eliminated to a great extent by driving a small lath nail slightly into the wall on the edge of the paper as far from the edge as is necessary to get the correct lap, and at a point about one-third of the length from the top. The nail can readily be seen and the paper hung against it. Only the slightest fraction of an inch lap is needed in lapping, and this lap can be rolled down so as to present the appearance of a perfect butt joint.

The Smallest Radio Set?

What is claimed to be the smallest radio set in the world has been built by an amateur in Providence, R. I. Spurred on by accounts of what others had accomplished in building small sets, he first built a set 2 in. long, 2 in. wide, and 1 in. high. This contained a fixed crystal, a phone condenser, and a single-slide bank-wound coil. His next attempt resulted in a set 2 in. long by 1 in. square, containing everything but the phone condenser, which was discarded as unnecessary. Slider bars on top of these sets permit tuning up to 500 meters.

Even the second was not small enough, so a third set was built, which can be covered completely with four postage stamps, one on each side. It is ⅝ in. in diameter



and 1¼ in. long. On this set concerts broadcast within a radius of 20 miles can be heard distinctly.

Cleaning and Peeling Potatoes

In some parts of the southern states, a novel and interesting method of cleaning and removing potato skins is used. The potatoes are placed in a pail half full of water and a number of rough stones are added. By stirring the potatoes and stones around in the water, the skins soon wear off due to the abrasive action of the stones, and the potatoes are washed clean.

Banker's Friends Elated

"Twelve years ago I became afflicted with stomach trouble which steadily became worse. I frequently became prostrated with colic attacks and bloating. My doctors wanted to operate for gall stones. I wished to avoid an operation and on advice of a friend tried Mayr's Wonderful Remedy with excellent results as since taking it about 2 years ago my trouble has entirely disappeared." It removes the catarrhal mucous from the intestinal tract, and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded at all druggists.

Red Frog of British Guiana

In the wilds of British Guiana is found a bright-red frog with a voice of astonishing volume, according to Miss Ruth Rose of the tropic research station. The native Indians regard these strange creatures as charms of great value. When one is caught the Indians cut it up into as many pieces as there are warriors in the village and each man rubs a piece on his arrows under the assurance that his aim will be infallible.

BUSINESS MAN OFF LIGHTLY

Adam Schwerha, McKeesport undertaker, twice convicted of involuntary manslaughter in the Westmoreland county courts was yesterday morning sentenced to pay the costs in the case, a fine of $100 and to serve 3 months in jail. The sentence was imposed by Judge J. N. Langhan of Indiana, who was ordered here by the Superior court to pass sentence.

Schwerha, it was alleged while returning from a christening on April 19, 1920, struck and fatally injured Miss Margaret McGrath, of Warren O, a school teacher in the Norwin schools and seriously injured two other teachers. The young ladies were walking along the Lincoln highway near Irwin, when Schwerha bore down on them with his high powered car. He was immediately placed under arrest and when called on trial was found guilty. He then appealed and at the second trial another conviction was brought in by the jury. He had appealed for a third trial and was awaiting a decision when he withdrew his petition and was ready to accept the verdict of the court.

They were met in Main street by the second and went to Third street and Marne avenue, where Miganko innocently handed the cash to the first man who informed him that he would go to an attorney's office and complete the deal, telling Miganko and the accomplice to wait for him. After leaving the second man also thought of some business which he found necessary to attend to and, also, left. After waiting alone on the corner for 10 minutes Miganko started in search of the man and his cash. After wandering about the streets for some time Miganko finally went to the police station and told Chief of Police S. S. Burnworth of the matter.

films and plates, candy, liveries, hunting garments, riding habits, yachts, and motor boats not for trade, fishing or national defense and pleasure boats.

Jewelry taxes, applying to musical instruments, silver plated flat tableware, and other articles selling for not over $30 and watches, not over $60.

Stamp taxes on checks, drafts, and promissory notes. Stamp taxes on sales on produce or exchange boards are reduced from two cents to one cent on each $10 or fraction. The stamp tax on playing cards is increased from eight to ten cents.

A new tax becoming effective tonight is a three percent tax on automobile truck chassis costing over $1,000 and on truck and wagon bodies costing over $200. On other chassis and bodies and on motor cycles, a five percent tax is imposed. Tractors are exempt.

Taxes on tires, inner tubes, parts, and accessories are reduced from 5 to 2½ percent.

Preparations are nearly completed for refunding about $16,000,000 to [illegible] taxes on March 15. Checks probably will be sent out about the middle of the next month, paying back 25 percent.

"BIG SNOW STUFF" THIS SUMMER

Everyone can look forward to a nice, cool evening this Indian summer. Charles Ray's big come-back feature, "Dynamite Smith," is now being assembled and titled at the Thomas H. Ince studios for reease by Pathe early in the fall, and those who have had a pre-view of it say that the big snow scenes are so realistic that icicels formed on their eyebrows.

Be that as it may, the picture will show some of the most remarkable shots of the north ever filmed, with scenic views of snow wastes, dazzRI ing peaks, blizzardshowling timber wolves, "husky" races, and fine snowshoe work. The companies were sent to bring home this footag. One went to Alaska for the scenic effects, and the other to Bangg, Canada, for the dog races.

The story calls for the most strenuous acting of Ray's active career, and so mauled and fagged was he when the "shooting" was over, that he is taking a rest before beginning his next picture. Bessie Love, Jacqueline Logan, Lydia Knott and Wallace Beery will be seen with him in "Dynamite Smith."

PREPARE FOR CONVENTION NO. 3

Cleveland, July 2.—Preliminaries of another national political convention were under way here today when the National committee of the conference for progressive political action met.

The convention which starts Friday at 10 a. m. in the auditorium where the Republican party nominated Coolidge and Dawes, according to committee members is expected to lose no time nominating Senator Robert La Follette as its presidential candidate.

The national committee today was to hear the report of secretary Arthur Holder that 32 states are now organized by Progressive groups affiliated with the conference for Progressive political action.

Silver Dollar Of 1804, Rarity, Valued In The Thousands

Pittsburgh, July 2.—Considerable interest has been shown here in the reported discovery at Lancaster, O., of an 1804 silver dollar, a coin known among collectors as the "King of American rarities, 'and variously valued at from $8,000 to $12,000.

Apparently the coin is one of the eight of that particular issue in existence and with its discovery the owners of all eight are known.

The rarity of the 1804 dollar and the interesting history which attaches to it makes it the most notable and valuable silver piece ever coined in the United States. It is said the scarcity of this dollar is due to the sinking of a China bound vessel with almost the entire mintage of the 1804 dollars on board.

Ammunition

The revolver using loose ammunition or paper cartridges was invented about 1835. Since 1860 we have had metallic cartridge ammunition. Since this invention no essentially new discovery in methods of ignition has been made, but smokeless gunpowder and concentrated explosives have added to the effectiveness of firearms.

An Odd Flag

An unusual color for a flag is found in the new Belgian royal standard, which is purple, with a gold shield in the center surrounded by a crown. The palm for originality probably goes to Trengganu, one of the Federated Malay States, whose national flag is plain black with a white band next the staff and no ornamentation of any sort.

Origin of "Simon Pure"

In Mrs. Centlivre's comedy, "A Bold Stroke for a Wife" (1717), Simon Pure is the name of a Quaker who is impersonated by another character during part of the play. We say "the real simon pure," meaning the real, genuine or authentic thing or person. As an adjective it means authentic, genuine, real.

Pays to Be Careful

A small boy said that a gun was dangerous without lock, stock or barrel, because his daddy licked him with the ramrod. Careless men find ways to hurt themselves anywhere, while careful men can do hazardous work all their lives and never get a scratch. —The Night Watchman.

Keep Physically Fit

There are only a few propositions for human conduct that nobody disputes. Here, I think, is one of them: Regardless of sex, age or vocation, every person is better off, mentally, morally, socially and financially, for devoting part of his leisure time to the task of keeping physically fit.

When One Tongue Was Used

There are some persons who suppose that Hebrew was the language spoken by Adam. Others say that Hebrew, Chaldean and Arabic are mere dialects of the original tongue, of which it is said in Genesis 11:1: "The whole earth was of one language and of one speech."

Permanently Wise Man

Wisdom is like electricity. There is no permanently wise man, but men capable of wisdom, who, being put into certain company, or other favorable condition, become wise for a short time, as glasses rubbed acquire electric power for a while.—Emerson.

"Well of English Undefiled"

The expression first occurs in Edmund Spenser's "Faerie Queen." It there refers to the works of Geoffrey Chaucer and was intended as a compliment to the purity of that poet's English.

Good Fortune

The best piece of good fortune which can come to one is opportunity for intimacy with a leader, in whatever line of life he may be engaged.—Edward Everett Hale.

Mercy for Friend and Foe

As freely as the firmament embraces the world, or the sun pours forth impartially his beams, so mercy must encircle both friend and foe.—Schiller.

McADOO TRYING HARD TO WIN NOMINATION

(Continued from First Page)

date. He reached the high point of his strength in the final ballot last night with 323½, 43 votes shy of a third of the convention. But he doubtless could get these in Illinois, Maryland and Delaware alone and still further additional ones in Iowa, Missouri and Ohio. So if McAdoo, like Woodrow Wilson at Baltimore 12 years ago, should come up again after a decline in his strength, it is not difficult to believe that Smith has the reserve to definitely stop him. McAdoo has definitely shown he has a die-hard strength sufficient to stop unless there is a stampede.

That's about all there is to the situation right now. Today should develop some very definite trends. There may be a nominee by tonight or tomorrow. The convention leaders on the other hand may decide to steal Senator La Folletts's idea and make the nomination an Independence day affair.

Many of the delegates have run out of money and are going home. This worries McAdoo's supporters and cheers George Brennan. "Let them go," said Brennan when advised of the situation.

"They didn't bring anything with them when they came anyhow—except maybe a toothbrush."

BREAD LINE—MAYBE AT THE GARDEN

Madison Square Garden, N. Y., July 2.—If the deadlock isn't broken today, there's going to be a bread line around the Garden soon.

Delegates who came here ten days ago to dine in state are now taking their meals in cho-arm establishments. Their money is low and many are returning home.

Even the political moguls who dictate minds of the delegates have no control over their stomachs and regard this new trend as more important than any other in the big decision as to who is to be the next Democratic presidential nominee.

The exodus of votes was started last night when nearly fifty are reported to have departed to their homes with their pockets empty after a sally into the absorbing gaiety of New York.

The movement has reached such seriousness the higher class hotels are being vacated. Some of the delegates are moving to cheaper places, but others have nothing left but car fare home.

This is especially true of the western delegates who have been considered strong McAdoo voters. His managers already have taken cognizance of the trend by issuance of a statement denying that the movement would result disastrously for the leading candidate. Most of the Smith votes come from nearby states.

Builders of Success

Building creative mental pictures is your main job—your most important activity. Your friends, your books, your interests, decide your success. Select them with care.

Our Constitution

The most successful organizations are the ones with the fewest general orders. The most successful country the world has ever seen and the republic that has stood the test the longest is this country of the United States, which has the shortest constitution, or general orders, of any government.—Forbes.

No Courting There

For centuries past it has been the custom in China for parents of a baby girl to betroth her, in infancy, to the youthful son of a friendly couple, and there have been numerous cases in which the girl has not seen her husband-to-be until she arrived at the home of his parents for the marriage ceremony.

Origin of Tattooing

It is impossible to say when and where the custom of tattooing began, but it is of very ancient origin. In the tombs near Thebes were found painted representations of white men with tattooed bodies, and in his commentaries Caesar writes of Britons being tattooed.

Luck That Changed

An insurance agent found a quarter on his doorstep, his wife picked up half a dollar and his daughter rushed in announcing the discovery of a dime. At supper their toast was "May our good luck continue," and then the father found that, owing to a hole in his pocket, he had lost about a dollar. —London Tit-Bits.
